About Me

Aspiring Web developer with a strong foundation in programming, eager to gain hands-on experience in a dynamic software house. Passionate about learning, problem-solving, and contributing to real-world projects while enhancing my technical and teamwork skills.

WORK EXPERIENCE

Project: Personal Expense Tracker

Tech Stack: Python, Streamlit, SQLite

- Built a full-featured app to track income, expenses, to-do tasks, and data export to CSV.
- Implemented persistent storage using SQLite and added dark mode toggle and drag-and-drop task features.
- Visualized expense data using interactive charts.

Web Development Project: Portfolio Website

Tech Stack: HTML, CSS, JavaScript, Tailwind CSS

- Designed and developed a responsive portfolio website to showcase personal projects.
- Integrated GitHub repository links and contact form using Formspree.
- AI Bootcamp – GIAIC (Ongoing)
 - Learning Python for AI, data structures, and ML concepts.
 - Worked in teams to complete assignments and build mini AI-based projects.
